Year 2021-2022

Best Practices

Title of the practice-Website Creation and Hosting

Objective of the Practice-

1. Introduce new languages to students.
2. Describe study about data collection and feasibility study.
3. Study about maintenance of website after hosting.

Context-

The Shivaji University offers syllabus of BCA as for IT field carrier opportunity. BCA syllabus covers the different languages and OS systems for study. In that include C, CPP, and Java as a basic languages and HTML, CSS, ASP languages for web development.BCA I and II years students covers the knowledge about web development as a basic also we offer ADD-ON courses for web development. We discuss with student about their interest and guide them for online live project. BCA-II and BCA-III have mini project and major project for semester. We practically show the students how work on live project is and how handle live project.

Practice-

After successively completing pratinidhi high school, Kundal and our college website the BCA department and BCA students covers new live project for 2 new schools. BCA students work on 2 new websites-patangrao kadam madhymik vidyalaya, Kundal and patangrao kadam prathmik shala, Kundal with domain name- www.pkmvkundal.co.in and www.pkpskundal.co.in . In that website we implement the knowledge of website creation and hosting to new students of departments. The student use HTML, CSS;

BOOTSTRAP and PHP language for creating those 2 websites. After successively hosting these 2 websites students earn 15,000 rupees to each website. Here we motivate students for earn and learn METHODOLOGY. Students also getting knowledge about marketing and business strategies, that all things are important in future for become start our business in IT sector also.

The students also gain knowledge about FTP transformation of data for data transferring to server with live stage. The students fallows the SDLC formation for creating a website and hosting a website successively.

Evidence of Success-

BCA department and student complete fallowing website successively-

Sr. No	Website Name	Website description	Platform
1.	www.pkmvkundal.co.in	School website	HTML, CSS, Bootstrap, PHP
2.	www.pkpskundal.co.in	School Website	HTML, CSS, Bootstrap, PHP

BCA students gain perfect knowledge about web creation and create own live websites also get income from hosted website.

We try to ready to students as a business carrier in future. We also arrange seminars and workshops for students for web creation approach. Students gain web design knowledge and make own website for customers and get income. That practice of BCA department is best for student as "Earn and Learn" method.

डॉ. पतंगराव कदम प्राथमिक शाळा, कुंडल

पहिली लाड एज्यु. सोसायटी कुंडल संचलित डॉ. पतंगराव कदम प्राथमिक शाळेची स्थापना सन 2003 मध्ये झाली. संस्थेचे संस्थापक मा.महेंद्र (आप्पा) सुबराव लाड व स्व. पतंगरावजी कदम साहेब यांच्या अथक परिश्रमातून एका सामान्य वाड्यात सुरु झालेल्या या शाळेने आज दैदिप्यमान यश मिळवत, यशाचा आणि कितीचा कळस गाठला आहे.

आजवरचा इतिहास सांगतो की समाजातील सामान्यजनांच्या मनात जेव्हा चैतन्याचा आणि आत्मविश्वासाचा दिवा पेटतो तेव्हा अशक्यप्राय वाटणारी कामेही सोपया होऊन जातात आणि याचे प्रत्यक्ष उदाहरण म्हणजेच डॉ. पतंगराव कदम प्राथ. शाळा कुंडल.

हे विद्यालय 'तमसो मा ज्योतिर्गमय' अर्थातच अंधकारातून प्रकाशाच्या दिशेने होणारी वाटचाल. संस्थेचे हे ब्रीद वाक्य आज सार्थ ठरले आहे. आज कित्येक विद्यार्थी या विद्यालयातून शिक्षण घेऊन उच्च पदावर कार्यरत आहेत. सर्व भौतिक सोयी सुविधांनी परिपूर्ण असणाऱ्या विद्यालयामध्ये आज पंचक्रोशीतील सर्वसामान्यांची शेकडो मुले शिक्षण घेत आहेत.

" प्रिय आई ही आजची शाळा लिहायचं मी काय लिहावे,
सहजी तिचे माता-बाला शब्दच जणू कमी पडले "

Outcomes of Best Practices-

1. Students get exact knowledge about how to data collect from customer.
2. Students understand distribution of data and also getting knowledge about feasibility study.
3. Students perform well in how to maintain website after hosting

Problem Encountered and Resources Required-

1. A communication problem arises between student and customer.
2. Code repetition and code integrity not maintained by student.
3. The time management issue for student for handling college and work get hardest.
4. Customer availability problem arises to students.
5. Website marketing and data collection issue for students.

Best Practices

Title of the practice-Website Creation and Hosting

Objective of the Practice-

1. Describe web creation languages with students
2. Students Practices and working on Live Project
3. Getting knowledge about marketing and business.

Context-

The Shivaji University offers syllabus of BCA as for IT field carrier opportunity. BCA syllabus covers the different languages and OS systems for study. In that include C, CPP, and Java as a basic languages and HTML, CSS, ASP languages for web development.BCA I and II years students covers the knowledge about web development as a basic also we offer ADD-ON courses for web development. We discuss with student about their interest and guide them for online live project. BCA-II and BCA-III have mini project and major project for semester. We practically show the students how work on live project is and how handle live project.

Practice-

We gain the advance knowledge for create a website ad hosting that website on server. Our previous year students get advance knowledge about websitehandling and FTP protocol. The panchshil academy placed in palus and that is one the best academy in sangli district. The BCA II year student get a synopsis title panchshilacademy website. The live project for practice and working on them perfectly.

The BCA II year student performs the website task with fallows SDLC. They done our team and assign task to one person like analysis, designing, coding and handling all website online on hostinger platform. The student used HTML, CSS, BOOTSTRAP,

PHP language for creating that website. The website owner sharing all relevant information with students and then student's ready panchshilacademy website well in manner. The student earns 15,000 rupees for completing that website.

The students gain perfect knowledge about website design and hosting website on server. Also students handle website with File transfer protocol for updating website up to date.

Evidence of Success-

BCA department and student complete fallowing website successively-

Sr. No	Website Name	Website description	Platform
3.	www.panchshilacademy.com	Panchshil academy palus website	HTML, CSS, Bootstrap, PHP

BCA students gain perfect knowledge about web creation and create own live websites also get income from hosted website.

We try to ready to students as a business carrier in future. We also arrange seminars and workshops for students for web creation approach. Students gain web design knowledge and make own website for customers and get income. That practice of BCA department is best for student as "Earn and Learn" method.

Best Practices

Title of the practice-Website Creation and Hosting

Objective of the Practice-

1. Getting knowledge about web design.
2. Students aware about working on live projects.
3. Student getting knowledge about web hosting and handling.

Context-

The Shivaji University offers syllabus of BCA as for IT field carrier opportunity. BCA syllabus covers the different languages and OS systems for study. In that include C, CPP, and Java as a basic languages and HTML, CSS, ASP languages for web development.BCA I and II years students covers the knowledge about web development as a basic also we offer ADD-ON courses for web development. We discuss with student about their interest and guide them for online live project. BCA-II and BCA-III have mini project and major project for semester. We practically show the students how work on live project is and how handle live project.

Practice-

In BCA student learn a basic languages and knowledge about web development but we describe the details web development process and advance languages like Bootstrap. All students practice on each and every programming and web development languages after college time.

The students create a static website from syllabus covered languages; also we recover and update the student's website. The all students practice on static and also dynamic websites and research on market requirement about updating in web creation. Student get all perfect data about market and meet the customer and discuss with them for

business website. Because of that students gain exact knowledge about marketing and business strategies.

Once the customer ready to create their business website then student and staff research on that work like which language is used for create that website and how's they website created , customer requirement about website and all. The end discussion our student finally working that live website with use of Software Development Life Cycle. Each and every stage fallow for making customer business website with their requirement.

Students used advance knowledge for making a static websites. In that they use professional designing and better GUI for user satisfaction. The BCA department and students done near 5 website with good review from customer. If website complete then students host that websites on different hosting services like go daddy, hostinger etc. we also cover in lecture the whole process about how's website hosted and maintain after hosting a website.

BCA department and students handle 3+ live websites, after website host as per hosting cost student collect hosting cost and designing cost from customer. The website successively run on hosting panel then students provide yearly updating to customer with their requirement and also renew websites after year complete. BCA department and students of department also handle college website.

Evidence of Success-

BCA department and student complete fallowing website successively-

Sr. No	Website Name	Website description	Platform
1.	www.phskundal.co.in	PratinidhiHighschool, kundal website	HTML, CSS, Bootstrap, PHP

BCA students gain perfect knowledge about web creation and create own live websites also get income from hosted website.

We try to ready to students as a business carrier in future. We also arrange seminars and workshops for students for web creation approach. Students gain web design knowledge and make own website for customers and get income. That practice of BCA department is best for student as "Earn and Learn" method.

We discuss with student about their interest and guide them for online live project. BCA-II and BCA-III have mini project and major project for semester. We practically show the students how work on live project is and how handle live project.

Practice-

The college website plays an important role in academic years. The college website covers all information and important data about college and also expands the student's data. The college website handling before that practice from third party like IT Company. We work on that and exploring the knowledge with students. The previous website of college run on ASP.NET platform so that reason the windows hosting space is very expensive for purchase and renew of college website.

Our BCA students convert that all website in plain HTML, BOOTSTRAP, CSS and PHP also. The previous website not a mobile responsive they not working well on any device like tab, mobile etc. but students convert all website in responsive mode also.

The practice from that mode students gain extra knowledge about website creation and hosting. The students also getting knowledge about use of FTP protocol that are used in file transfer to server without disturbing live website.

Evidence of Success-

BCA department and student complete fallowing website successively-

Sr. No	Website Name	Website description	Platform
1.	www.kgdbapuladcollege.in	College website	HTML, CSS, Bootstrap, PHP

Practice-

BCA students get knowledge about website creation and hosting that website. We need to upgrade the knowledge about web creation. In that environment the marketing skill is important for exploring our project. The click2palus website getting full of information about palus and palus heritage and historical data also. We collect information from each and every shop owner and design model click2palus for visitors. The visitors can search required information from that website and also getting a particular contact no. of that shop owner at the time of emergency. In click2palus website we display all relevant and important contact numbers about hospital and bus stand also. The shop owner fully

satisfied with work of click2palus, because here they explore the whole shop information like address, contact no, new offers and latest updates about shop. Our students meet each shop owner and communicate with them for register on click2palus website. We also pay some amount for register shop on our website because of that BCA students get idea about marketing and web development also. The student earns 35,000 rupees for completing that website.

Evidence of Success-

BCA department and student complete fallowing website successively-

Sr. No	Website Name	Website description	Platform
1.	www.click2palus.com	Palus City Website	HTML, CSS, Bootstrap, PHP

BCA students gain perfect knowledge about web creation and marketing. create own live websites also get income from hosted website.

We try to ready to students as a business carrier in future. We also arrange seminars and workshops for students for web creation approach.
